IN-HOUSE CAPABILITIES

DESIGN

Conceptual and industrial design, from brief to engineering-ready specs. We also translate your concept into buildable drawings.

TECHNICAL DEVELOPMENT

Prototyping, model shop, material and method resolved in-house before production starts.

WOOD, METAL & PLASTICS

CNC routing, structural carpentry, metalwork and welding, laser cutting, acrylic/PVC/PC processing.

HP LATEX PRINTING

Large-format, UV-resistant, water-based latex ink - odourless and safe for occupied retail space.

3D PRINTING (FDM/SLA)

A farm of 14 printers - from prototype to final-finish production parts.

DUST-FREE PAINT SHOP

Lacquering, varnishing and specialty surface finishes.

HANDCRAFT & MIXED MEDIA

Papier-mâché, textile, upholstery, preserved moss, felt, leather and sculptural techniques.

INSTALLATIONS

Installations across Europe with our own crews, and with coordinated local teams.

WORKING WITH AGENCIES, BRANDS AND CULTURAL INSTITUTIONS SINCE 1995
